February 7, 2022 - Grand Theft Auto V has sold 160 million units since launch. GTA V's sales figures are huge, not only when compared to other games. February 7, 2022 - Grand Theft Auto V has sold 160 million units since launch. GTA V's sales figures are huge, not only compared to other Rockstar Games titles, but to any other game in history. According to IGN, this is about five times more than the sales of the first three parts of Red Dead Redemption. In 2016, Grand Theft Auto V became the best-selling game in the US with sales of over 12 million copies. It is also the best-selling PC franchise. fffad4f19a
