Field of the Invention The present invention relates to a fusing apparatus and an image forming apparatus and more specifically to a fusing apparatus for fixing a toner image on a recording medium. 2. Description of the Related Art A fusing apparatus for an image forming apparatus of the type using an electrophotography or an electrostatic recording method has been used in order to fix a toner image (developer) formed on a recording medium (plain paper, OHP or coated paper, etc.). A heating roller type fusing apparatus is suitable for the image forming apparatus, such as a copier, a printer, a duplicator or a facsimile apparatus, that employs a heat fixing method. This fusing apparatus is commonly used in the image forming apparatus, because it is compact and the processing speed is high. In recent years, with the increasing printing speed in image forming apparatuses, the temperature distribution has been generated in the roller surface of the heating roller by the heat generated by the heating roller itself, the heat which is reflected in the roller surface and the heat from the toner included in the developer. As a result, the temperature distribution of the

At the same time, on the lower part of the screen, you have the 'Transfer Files' button through which you can download or upload documents. Select the files you want to move and press the appropriate button to complete the action 1-abc.net FTP Organizer is very simple to understand and work with, the connection settings being reduced to a minimum, so you only need to input your FTP server address, your username and password, as well as an optional folder name on the server. These details can be entered by pressing on the 'Browse' button in the 'FTP Folder' panel, after which you can 'Check FTP Connection' or click on 'OK' to establish the connection. 1-abc.net FTP Organizer will remember the input information from one session to the other, but you can only work with one server at a time. In order to move a file from one location to the other, you will first need to select the targeted items, then press the 'Transfer Files' button, as this is the only means by which you can upload or download files (double-clicking them will just open the files using your default software). Optionally, you can create a new folder on your computer or on the FTP account, to which you can then upload data. However, 1-abc.net FTP Organizer features a relatively limited amount of actions and editing operations for you to perform, functioning as a quick FTP uploader / downloader, but lacking any complex functions. Simple FTP client To summarize, 1-abc.net FTP Organizer is a handy albeit restrictive utility which enables you to swiftly transfer data between your local folders and a FTP server, saving you time and effort in the process.Farmandale, Wisconsin Farmandale is an unincorporated community located in the towns of Rochester, Segojaquin, and Montello, Wisconsin, in the east central part of Dodge County, Wisconsin, United States.
