The Average Web Designer salary is $41,917 according to the U.S. Bureau of Labor Statistics. Designing graphics for newspapers or magazines could make you more, since graphic design wages vary greatly depending on what you're designing for and the size of the project. Experienced designers could make $49,741 or more per year, while those with less experience could start out making a base salary of around $23,879 before bonuses or benefits. The BLS also expects more jobs to open up in the field of graphic design, a prediction that will drive up job openings and salaries. A web designer creates websites by following a web design process. A design process involves all the activity, such as preparation of information, creation of images, and text writing, that a designer performs to create a website. The web designer has to create the entire look and feel of the site, but if your website's content is high in volume, your user interface may have to be streamlined. When using a spreadsheet program like Microsoft Excel, Adobe Photoshop, Microsoft Access, or something similar, you need to be able to store data about your clients, projects, and their websites. You should make sure you can record such information in a reliable and complete manner. You should also make sure that you know how to navigate the different parts of the program. Creating a color chart takes some time to understand the principles, but the work is not so complicated as it may seem at first glance. The most important and difficult part of creating a color

find something to say about the thing you're sitting down to watch. Even if it's just "Nice try, Tez." Some filmmakers have tried to make their movies zippier with limited success, others have gotten more deft. Most of what we're looking at, whether it's the ability to mimic the comic timing of your favorite movies, or approaching cinematography with a desire to have your movie go by like a montage, or any of the other new tricks, can be achieved if you're willing to learn them. There's an echo chamber of course, but when a filmmaker comes out of it, with a movie that's as good as the music or the look of the video game they're trying to make, the idea of having to spend your entire life trapped in the echo chamber will seem kind of small.
