ETM Manager Crack

ETM manager is a group time tracking software intended to help your employees be more efficient and productive. It provides a comprehensive suite of tasks and features that allow you to control your employees' work time. It features several modules. * ClockIn * ClockOut * Employee Data The clock-in/clock-out module allows you to track the work hours of your employees. The clock-in/clock-out data is stored in an SQLite3 database. This is an extremely powerful feature that allows you to organize your work. Each of your employees will have a personal dashboard that will show him/her the work that he/she is supposed to perform. This is a really great way to monitor the work of your employees. ETM manager BOSS (Online Work Scheduling Tool) is a web based application and a desktop based application to manage the work schedules of your organization. It has all the functionalities required to manage the work schedules such as: * Setting the work schedule for employees * Attendance tracking * Invoice module * Employee Tracking * Time Report * Message Application It also provides a Feature Module for invoice management, bill payment, tracking invoice, budgeting etc. ETM manager is written in Java using Maven. It uses SQLite3 for databases. It is a Open Source project. [\[Build Status\]](#) [\[Coverage Status\]](#) [\[Total commits\]](#) [\[Join GitHub\]](#)
