## **IUWShare Any Data Recovery Wizard Crack + For Windows**

IUWShare Any Data Recovery Wizard Crack For Windows is a reliable application that allows you to retrieve important data that you lost due to disk formatting, accidental deletion or system crash. The application can restore lost data from multiple types of storage devices, such as hard drives, USB devices or memory cards. Scanning and recovery process IUWShare Any Data Recovery Wizard can perform a thorough scan of the selected drive in order to identify traces of files that were lost or damaged. The application can piece the data back in order to restore the lost files and allows you to save the results on your computer. The program performs a preliminary scan of the selected drive in order to identify lost files. It supports a large range of data storage platforms, including hard drives, flash memory devices, removable media, digital cameras, USB drives or memory cards. The first screen displays the detected drives and allows you to select the one you wish to investigate. Fast or deep scan By default, IUWShare Any Data Recovery Wizard performs a quick scan that can retrieve recently deleted files, which takes up to a few seconds. If the files you are looking for are not amongst the results, you may easily proceed to the Deep Scan, a thorough process which can take up several minutes or hours. Once the scan is finished, the recovered files are sorted into temporary folders, according to their format, for you to preview. The panel on the right provides a preview, where possible of the recovered file. Simply select the files you wish to save, then the output location. Simple to use recovery tool IUWShare Any Data Recovery Wizard allows you to quickly identify and restore files that you accidentally lost. Whether from system damage or accidental deletion, lost files can no longer be found or opened. This recovery application is capable of identifying a large range of lost/damaged files on several types of drives. IUWShare Any Data Recovery Wizard Features: Detailed wizard interface Recover files from removable media Restore data from a wide range of storage devices Recover files even after a long time Recover files from all supported types of storage devices Restore files from damaged media Recover data from multiple damaged partitions Scan directly on large devices Recover deleted files even when the original file is not present Recover from formatted drives Recover files from a fixed-size partition Recover data from damaged partition Support all types of hard drives (SATA, IDE, E
