The new cultivar originated in a controlled breeding program in Elburn, Ill. during December 2004. The objective of the breeding program was the development of Torenia cultivars that are freely flowering with unique flower colors, dark green-colored foliage, and a moderately vigorous, mounded-upgrowth habit. The new Torenia cultivar is the result of cross-pollination. The female (seed) parent of the new cultivar is the proprietary Torenia cultivar designated 'G16
