Special is a Japan-exclusive action role-playing video game for the Wii video game console, developed by Acquire. It is the sequel to Tuesday, August 8, 2008 It's A Real Change The first few days of summer vacation are a bit of a mixed bag: A week with no schoolwork means days of delicious freedom and days of stupid exhaustion. As a student, the latter has always been my preference. But so far this summer I've been immensely lucky because I've had good reason to do nothing. Friday, I had a meeting at noon and then hung out, ordered some food, and went back to my room to study. That lasted until 6:30 or 7:00, when I left to meet some friends for a drink at a nearby bar. I hung out with them for several hours, then spent a few hours catching up on work and sleeping before I walked to the school I attend with my friend Tommy. I took a bus back to his house and then met Tommy at a friend's house for a few hours of studying. Around 12:30, I walked home and went back to my room to work on assignments that had piled up since the beginning of July. I sent emails and did some reading, and the evening was filled with catching up on work, doing laundry, and playing video games with my roommates. At 7:30, I walked to the nearby bar and hung out with some friends for a while. We went back home and then went to hang out with some friends at my cousin Risa's house, who lives in a nearby apartment building. It's like a 5-minute walk home, but still, I'm not really used to getting home that early. So, all in all, a decent day, albeit a long one. I got up late the next day and then sat down and worked for a while. A few minutes before bed, I went outside for a walk and ate some fast food on the way. When I wake up on Monday morning, I'll be happy to get back into the routine of studying, writing, reading, and writing about what I'm reading. Now for the weekend... Tommy and I will have a comfortable 3-day weekend without having to worry about schoolwork. I can't wait.
