Episode 1 Far Cry 5. Far Cry 5: Gold Edition v1.011 + 5 DLCs Repack (16.5 GB) MICOP/MICOM PAD Use the MICOM/MICOP PAD on the Floor; sips, cigarettes, medications, ID, etc. The MICOP is a slim and compact device that is attachable to the corner of the iCARE Medical cabinet. It features a slim comfortable grip with an easy to use touchpad interface. The MICOP can be used as a standalone tablet, or alternatively it can be used as a discreet device for storing items such as medications, ID, money, and other small items. It is the perfect solution for storing valuables! The MICOP contains an internal 10 cm x 15 cm x 0.7 cm firm-foam layer that serves as a cushion and as a wall for the device. This cushion layer fits neatly under the iCARE Medical cabinet door. If you can't get to a MICOP device, contact us, and we will send one to you without delay. AT&T VALUE ADDED The MICOP/MICOM product has been fully tested and approved by AT&T for use in their network. This is great news for us since AT&T is one of the largest telecom companies in the US. Most of all, AT&T is synonymous with our nation's communication network (and of course we can't think about using a telephone without the network). We have been doing this for 15 years and have the necessary approvals and certifications from their network engineering department. This has been documented in our Microsoft Web Site (www.softlook.com). Remember, the iCARE Medical cabinet offers the most quiet and concealed medical facility in the world. We have made great strides over the years to that end. We have become innovative in our product offerings and now you too can benefit from the best of technology available. MR ENTRY We can help you to penetrate (medical) establishments as well as hospitals, clinics, and pharmacies that refuse to participate in the electronic medical records programs. There are certain medical groups and clinics that use outdated computers that make it difficult to get their data into the computers. We can offer a way around this problem and through a special grant we received from the Florida Department of Health, we were able to purchase an entry device that can monitor existing
