The Elliptical Marquee Tool lets you select an area on an image, which you can then alter to create an outline. The Gradient Tool can be used to apply color gradients to images. You can also use it to create bevels and emboss effects. Text Tools let you add text to an image. You can scale, rotate, apply effects to, and manage text. With the Zoom Tool, you can enlarge an image by magnifying it. You can also use the Pen Tool to paint on the screen of an image. You can layer multiple images using the Layers panel or by using the Paste Background command. You can combine layers using the Merge Layers command. You can also create a variety of special effects in Photoshop. These include the Spatial adjustment and the various blend modes. The Pen tool can also be used to create 3D layers. The Pencil Tool allows you to draw and edit on top of other layers in an image. It is great for adding detail to existing photographs. Photoshop provides a variety of options for manipulating images. The following are some of the most commonly used: Managing layers The Layers panel allows you to manage which images appear on your canvas. You can copy layers from one image and paste them into another. You can stack and merge layers. Text tools The Photoshop Text tool allows you to add text to your images. You can scale, rotate, and place text on your canvas. You can also customize the text tool settings, including the font, size, color, and type of text. The Spray Paint Tool allows you to spray an outline around a photo. You can either use different colors to create a variety of different effects, or you can create a new, custom color by using the Color Picker. The Marquee Tool lets you create an outline around an image, then erase that outline and remove the content inside. The area that is outside the outlined area remains transparent. The Elliptical Marquee Tool allows you to select an area and then can be used to create ovals, arcs, or ellipses. Use the freehand selection tool to drag and create curved selections. The Gradient Tool allows you to apply color gradients to images. You can use this tool to create bevels and emboss effects. The Text Tool allows you to add text to your images.
