Win 2.3B+ updated with the following:-
- the Bad White character written into the host will be removed - no more exploding players bugs/1 - Fixed more client crash bugs/2 - Fixed server crashes/3 - Added some new game options/4 - Added some new units/5 - Updated unit descriptions/6 - Should be quicker to load the game now/7 - Fixed more bugs/8 - Fixed more game bugs/9 - Updated the manual to

reflect the changes My first version had some bugs and the new version has all the latest fixes, also all the characters from the "Bad white" were taken out to avoid exploits of the bug they exploited. Clean as a whistle, no delays between turns, is playable for the most part on either steam or native, controls are responsive.

Vanguard: The idea is to have a main unit which costs HP but to regenerate HP every turn. The downside with this is that it costs the player some money.

Sniper: This class is simply a master of weapons, giving no unit HP. This unit is useful for taking out enemy units on a short notice.

Marauder: This unit has no actual health, instead it is a kind of guerilla unit which would be great for hiding and then suddenly launch a wave of highly damaging attacks against the unsuspecting enemy. With 3 classes and a total of 15 units available the player has loads of possibilities to defeat
