The software supports tree structures, dynamic styles of materials and several manufacturing methods and shows the cost of work in real time. The program may: Keep a count of the size of the cabinet, including the slopes of the anboxing. The number of racks, shelves, doors and drawers. Preparation method. Cabinet material, edges and frame style of each cabinet component separately. PolyBoard patch supports parametric matching links, as well as a tool card (drills and holes) for each of the cabinet components. The export function Post_Processing PolyBoard crack is compatible with most tool machines. 2D and 3D viewing: The software displays a 2D view (front, top, and side), as well as 3D rendering in relation to material colors and textures. You will get a built-in 3D function, it offers several predefined views and various scaling and rotation options for tools that help to set the desired 3D view. There is also a DXF 3D_Face export function that will be compatible with most CAD software, such as AutoCad, VectorWorks, KitchenDraw, etc. 5ec8ef588b
